

REMARKS

The Office noted inconsistencies between the Drawings and the Brief Description of the Drawings in the specification. Specifically, the Office noted that FIG. 3E is listed in the Brief Description of the Drawings in the specification but not contained in the Drawings. Also, the Office noted that FIGS. 6D and 6E are contained in the Drawings but not listed in the Brief Description of the Drawings in the specification. In response to these objections, the applicants amend the specification as above to correct the inconsistencies.

CONCLUSION

The applicants believe that the specification and drawings are free from inconsistencies and the application is in condition for issuance. The applicants respectfully request acceptance of the amendments entered that the patent be allowed to issue. If the Office feels that a telephone conference would expedite the resolution of this case, the Office is invited to contact the undersigned.
